Actually that would be great, since I have a 12-1:30 and would have ended up eating oatmeal during the conference call...

Here are the items Vicky wanted reported:

Ex. 5 - Deliberative

Karen - I am skipping my meeting - it was a MAT meeting, so I can cover if you are not available

Subject: RE: Staff Meeting at 11 am w/ADs & Immediate Office
Importance: High

Karen, can you cover the Division staff meeting 11 - Noon today? I have a conflict, but if you can't do it (and I see Bill has something scheduled until 11:30), let me know, and I will do it.

Items to report:

- your letter to Editor
- your permit activity
- busy on Freedom Chemical spill (rec'd draft American Water summary report on MCHM in pipes; Consultant for WV residential sampling study contacted EPA statistician to consult on sampling design; state flushing/sampling a few schools with odor issues)
- progress on Eden, NC coal ash spill (per update yesterday - water plants performing OK, unclear extent of ash along river bed)
- no significant action on Patriot Coal slurry spill (except interest from HQs/esp. OSWER and OPA)

--we will have big difficulty making 2/21 deadline for Office Plan (maybe can do outline per template)

Bill, anything to add?

-----Original Appointment-----
